

Kitchen Renovation Project

Construction on our new kitchen began on May 1, 2012. The kitchen renovation project costs about \$365,000; new kitchen equipment costs are \$105,000, with construction and upgrades to the infrastructure being \$260,000. The cost for the dining hall phase will be another \$125,000 above that of the kitchen. As things stand, we will address the dining hall phase in the near future, as funding permits.

Students, kitchen staff, and all of us connected with Bethany look forward to the completion of the kitchen portion of the project. We have had nearly 200 individual donors give towards this project. Alumni and friends understand how this integral part of our college influences community building! *"Our community spends significant time in this space for meals, studies, mentoring, and hanging out. We value time together and the interaction that happens here. The community gathers around tables in family style, and prays before beginning the meal,"* says Lisa Braun, Dean of Student Development.

Thank you for giving to this project. Visit www.bethany.sk.ca for updates on our kitchen renovation project.
