Six students from Bethany College who were returning from a volleyball tournament Saturday evening were involved in a single vehicle accident near Rosetown. A Bethany College staff member who arrived on the scene of the accident notified authorities and college leadership immediately. The parents of students who were involved were notified shortly after.

Two students remain in a Saskatoon hospital this morning, one of them in very serious but stable condition, and the other progressing favorably.

We ask for your prayers particularly for the students and families involved in the accident, and for the rest of the student body, faculty, and staff as they process this situation. Our hope and solace is rooted in our unshakeable trust in our God of love, hope, and healing. We deeply appreciate your care and prayers at this time.
